

Khater Sports

Khater Sports

WHO WE ARE

Khater Sports was established in 1987 specializing in different sectors of the sports industry starting with trading sporting goods with a focus on customer satisfaction. The company later entered the construction sector by providing turn-key sports facility projects quickly becoming the leading sports construction company in Egypt building some of the largest stadiums, sporting clubs and other facilities across the country.

Due to our unmatched quality and strong partnerships with world-renowned accredited firms, we have become the supplier of choice for anyone looking to build a state-of-the-art sports facility. We are proud to have the best sports construction engineers and technicians in the region making sure every project is delivered with superior quality and international standards.

With over 30 years of proven success in every governorate in Egypt, Khater Sports started to expand its market regionally to become the trusted sports expert in Africa and the Middle East. Along with its regional outreach, it has also widened its scope of work to include sports consultations, sports development and manufacturing to offer comprehensive customized sports solutions aiming to create an attractive environment for people to play sports and lead a healthier lifestyle, ultimately improving the community's well-being.

Some of the tournaments Khater Sports participated in:

- African Cup of Nations - 2019
- FIBA Basketball World Cup U19 - 2017
- FIFA World Cup U20 - 2009
- African Cup of Nations - 2006

Mission

To boost people health and wellbeing through developing, availing and managing sports solutions.

Vision

“To be recognized as the leading trusted sports expert and solution provider in Africa and the Middle East.”

Natural Turf

Natural turf pitches set the standard for functional properties and quality of use, and are widely preferred by players for their safety. Khater Sports provides the full setup of laying natural turf pitches including implementing the grass cover, the supporting substrate and a full drainage system. Khater Sports also provides full maintenance services including irrigating, sanding, aerating, fertilizing, trimming and resowing.

Air Defense Stadium

Royal City Compound

Synthetic Turf

Synthetic turf fields are becoming more and more popular for their convenience. They don't require much maintenance. With the immense research and development spent on this product, its properties have now mirrored that of natural turf in terms of feel and ball rebound. Another benefit of synthetic turf is that its playability is consistent regardless of the climate.

Hybrid Turf

Hybrid turf systems reinforce natural turf's playability properties combined with synthetic turf's durability. The synthetic fibers help stabilize and protect the natural grass to improve growth, reduce playing damage and extend the life of natural grass fields.

Suez Canal Stadium

Athletics Tracks

Khater Sports offers a variety of International Association of Athletics Federations (IAAF) approved seamless padded flooring systems for athletics. Our polyurethane systems are seen as the benchmark for athletics surfaces in the region. We use the latest technical standards in the construction processes to make sure our tracks are highly durable lasting for decades under any climate.

Khater Sports offers a wide variety of athletics competition requirements approved by the IAAF including starting blocks, hurdles, an integrated electronic system and other athletics competition necessities.

Tennis Courts

Tennis can be played on a variety of surfaces with completely different characteristics which substantially affects the gameplay. However they all must allow ball rebound, balance, sliding and turning on an energy absorbing base. Khater Sports offers grass, acrylic, rubber and clay tennis courts.

Khater Sports also provides all tennis court necessities including lighting, seating, umpire chairs and ITF approved tennis balls.

Squash Courts

A world-class squash court is a result of superior materials installed properly. At Khater Sports our top-notch technical team have massive experience in building squash courts and have delivered many squash courts used in international competitions. We take into consideration health issues concerning joint aches, so we use an engineered rubber padded flooring system developed by the American company Prestige which offers more flexibility while maintaining shock absorption, consistent ball rebound and a sturdy foot grip. Khater Sports has partnered with WSF squash courts producer McWil to provide premium prefabricated panels, glass walls and fittings. We have also collaborated with the English industry-leading manufacturer of plaster and paint for squash courts construction, Rebound, to make sure we deliver top quality squash projects. The material we use for our squash courts are accredited by the World Squash Federation.

Outdoor Multipurpose Courts

Khater Sports offers rubber and acrylic flooring systems designed for multipurpose courts. Multipurpose courts are mainly used for basketball, handball and volleyball. We partnered with major international brands to make sure we deliver high-quality specifications that are safe for players and extremely durable withstanding severe weather conditions like high temperatures, humidity and sunlight. Our systems are easy to clean and maintain as they were designed according to the latest international standards.

Khater Sports also provides all requirements for multipurpose courts such as goals, nets, balls, lighting poles and wire fences.

Swimming Pools

Khater Sports offers concrete constructed and prefabricated Olympic swimming pools according to FINA specifications.

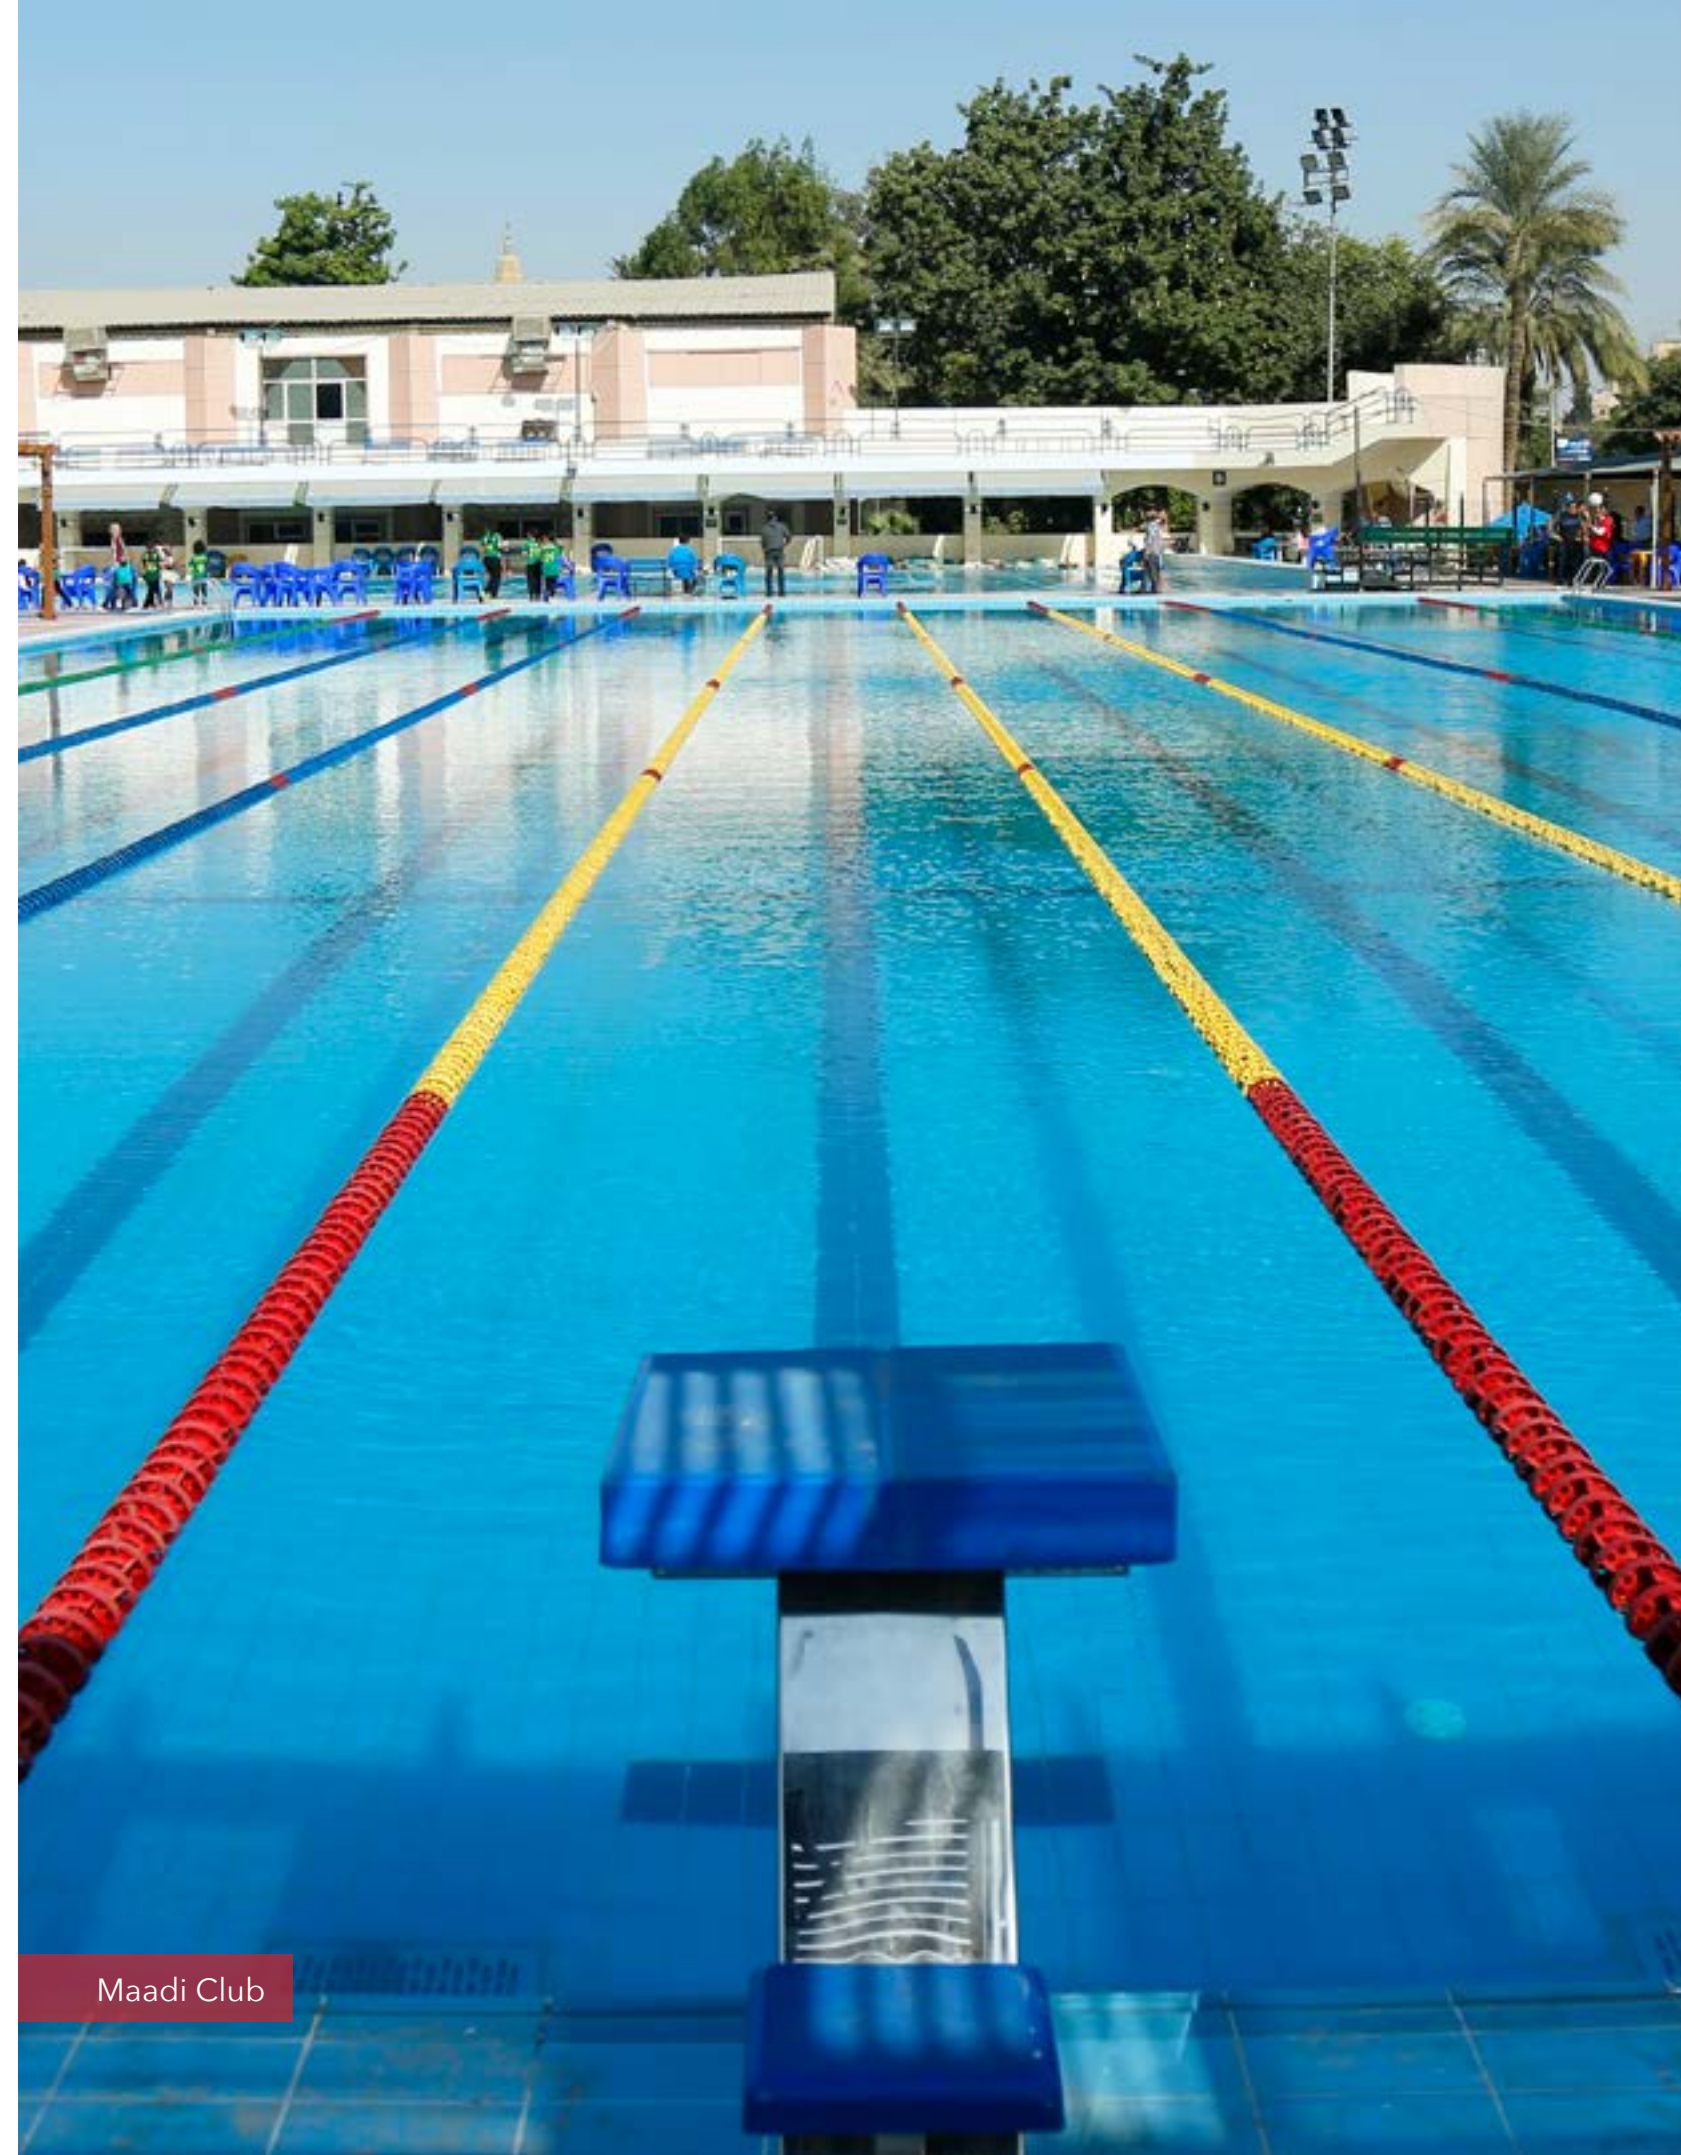

We offer the latest mechanical equipment from the world's largest pumps companies and the necessary filters and accessories to ensure that the swimming pools work efficiently minimizing maintenance costs.

Khater Sports also provides all the swimming pool supplies such as starting blocks, touchpads, diving boards and timing systems from companies accredited by the FINA to make sure these pools are capable of hosting international swimming tournaments.

Electronic Displays and Scoreboards

Khater Sports provides a wide variety of electronic LED displays and scoreboards internationally certified by different sports federations. Our screens can be seen installed in many stadiums and sporting clubs. They are considered a good investment as they enhance the audience experience and provide a source of income when used as a marketing channel for sponsors. The screens we install are manufactured using cutting-edge materials to ensure the best quality and ball-impact resistance.

Sports Equipment

Khater Sports offers a wide range of solutions to equip gyms. We start by inspecting the space and designing an ideal layout suitable for the available area. We then proceed by implementing this layout with the latest flooring systems designed specifically for fitness halls and providing all the required equipment and accessories.

Khater Sports also has a major share in the sporting goods market supplying the largest retailers with home-use and commercial-use sports and fitness products such as treadmills, ellipticals, dumbbells, ping pong tables, swimming gear, sports balls and more.

Playgrounds

A child's world is full of adventure and it's important to make sure their playgrounds are safe through proper flooring. Khater Sports prepares kids areas with safe rubber surfaces and playground equipment as well as climbing walls and climbing games.

Flooring Systems

We offer a smart and professional approach to delivering the best comprehensive sports solutions.

Rubber Flooring Systems

Acrylic Flooring Systems

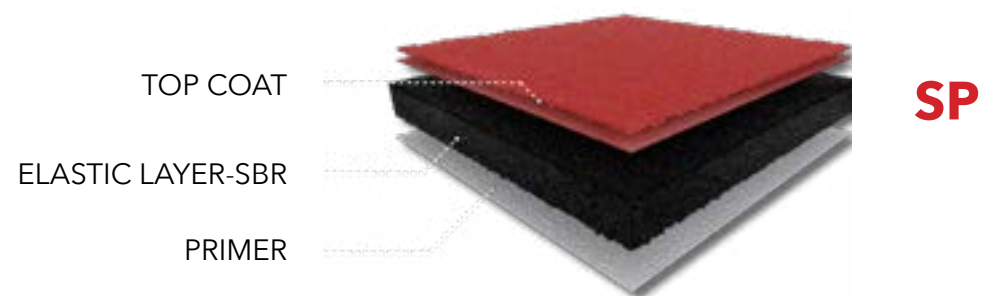

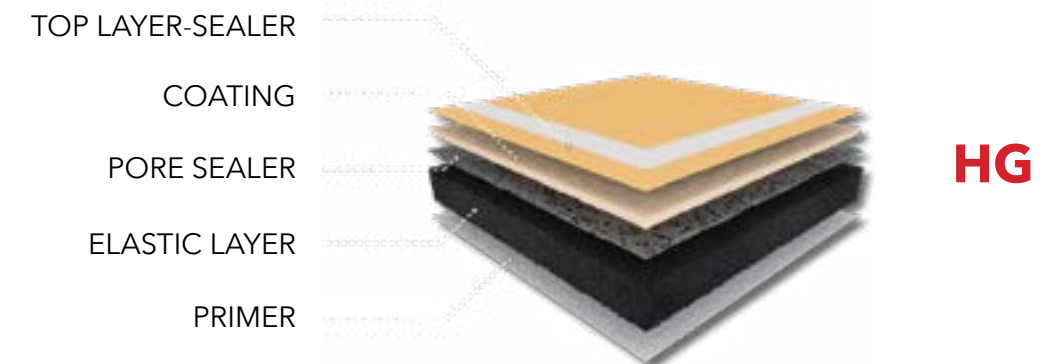

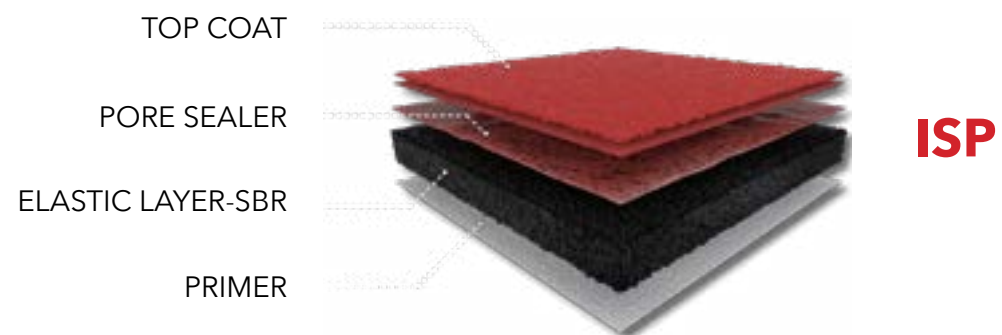

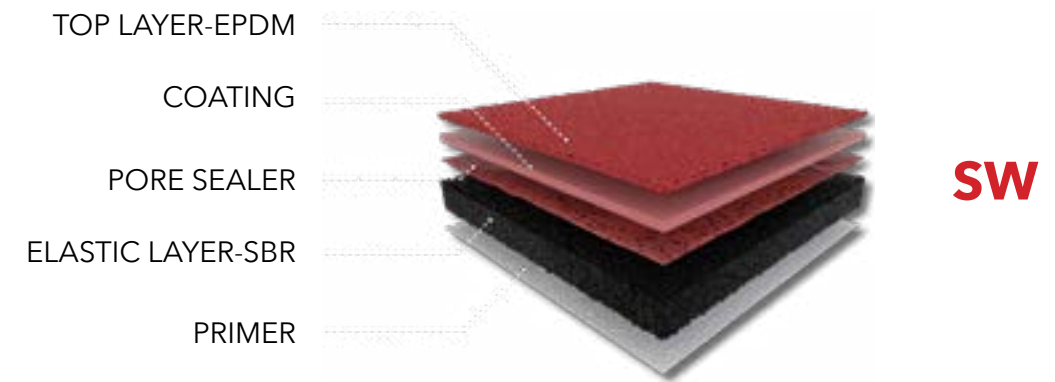

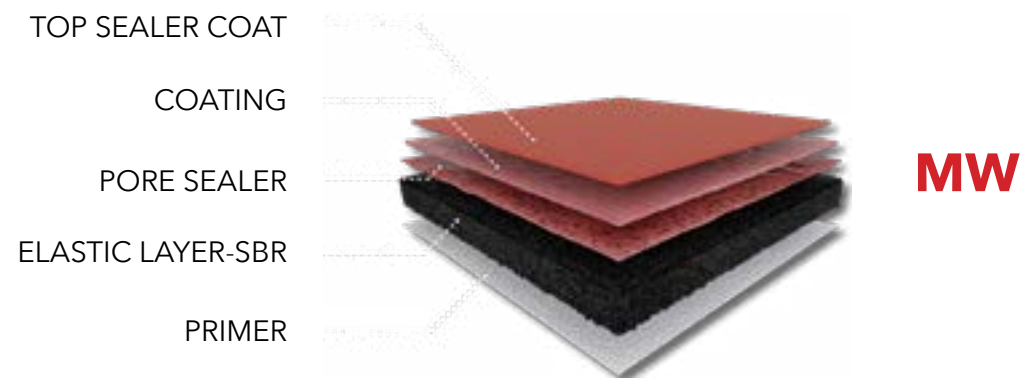

Vinyl Flooring Systems

Turf Flooring Systems

Wood Flooring Systems

Rubber Flooring Systems

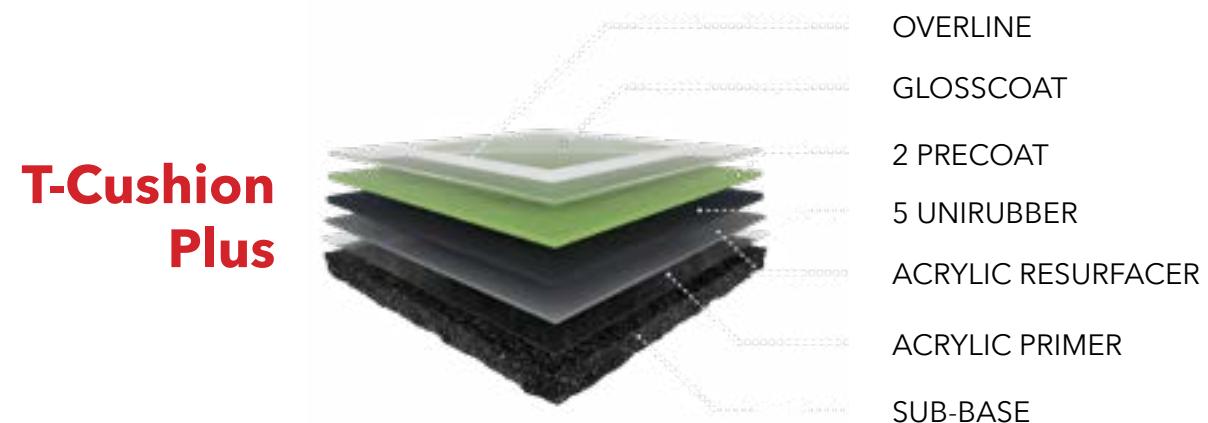

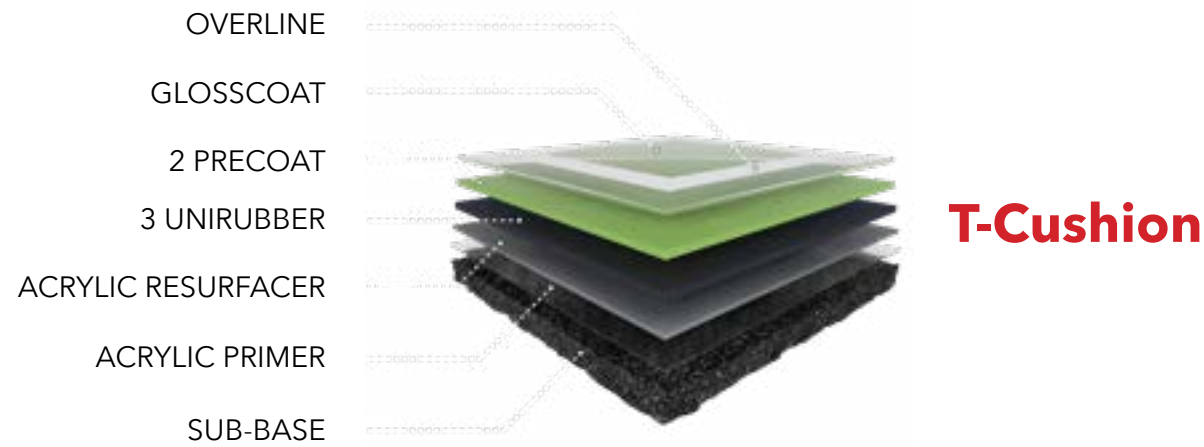

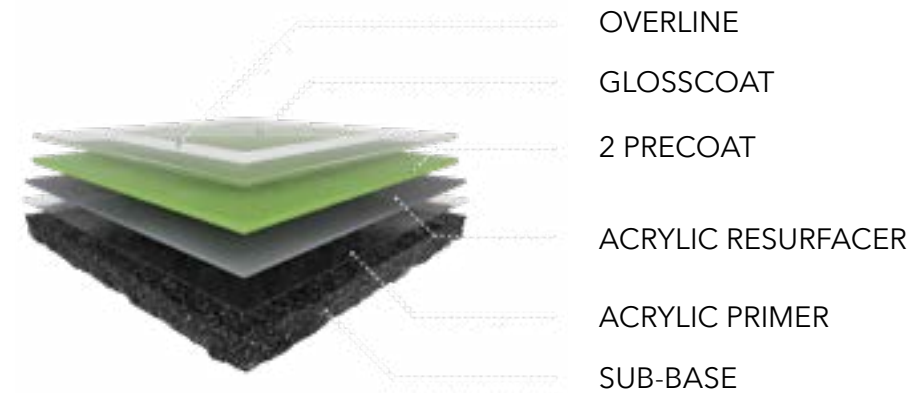

Rubber floors are known for their outstanding slip and wear resistance used outdoors and indoors. These systems provide high elasticity and protection, optimal mechanical and chemical resistance and a long lifespan.

Acrylic Flooring Systems

Vibrantly colorful and used outdoors, acrylic systems give players the joy of long lasting quality and comfort. The systems have an elastic structure due to a special granulometric rubber powder layer. This multi-layered system responds dynamically to body impact and reduces fatigue on players' hips, knees and ankles.

T-Standard

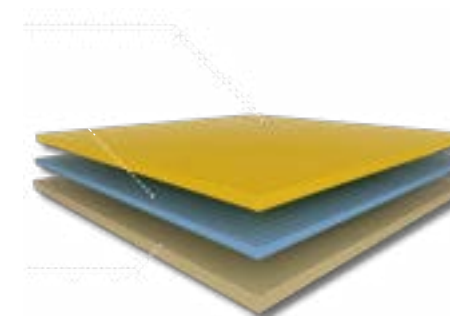

Vinyl Flooring Systems

Vinyl floors can be used for fitness halls as well as indoor ball sports as they deliver consistent ball rebound and spin properties. Their foam backing provides excellent shock absorption properties resulting in long-term protection on joints and reduce the risk of physical injuries.

Having optimal traction ensures a balanced level of friction that facilitates quick change in direction without slipping.

Turf Flooring Systems

Natural, synthetic and hybrid turf systems are most commonly used in football fields and other field sports. They are known for their high safety standards.

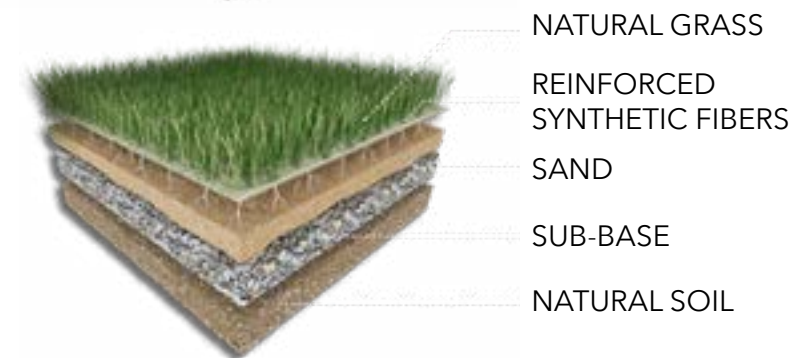

Natural Turf

Sports Synthetic Turf

Landscape Synthetic Turf

Hybrid Turf

Wood Flooring Systems

Free-floating resilient sports floors are designed for squash and indoor halls. These systems have great resiliency, comfort, shock absorbance and reduction of dead-spots for reliable high performance. The structural sub-floor treated sleepers provide the necessary support and space allowing air circulation and ventilation for more stability and long-term durability.
